Rue Lavoisier  
38801 Pont de Claix France  
**+33 4 76 69 50 00**

One contact for all services: Vencorex

## PLATFORM SPECIFICATIONS

■ 6 companies on site

Air Liquide	France
Isochem	France
Novacid	France

Sita Rekem	France
Solvay	Belgium
Vencorex	France

■ 700 employees

■ Total area 120 hectares **of which 20 are available**

■ **Security:** fenced site, guarded 24/7, Seveso-certified site (high level of security)

■ **Certifications at industrial level:** ISO 9001 - ISO14001 - OHSAS 18001

## OPERATIONS/PRODUCTS

- Chlorine - hydrogen - soda - phosgene - carbon monoxide - acids - brine - salt - amins - trichloride phosphorus - oxygen - nitrogen - hydrochloric acid...
- The site is also connected to ethylene pipe-lines

## INFRASTRUCTURE

- ✈ 2 airports: Lyon-Saint Exupéry, Grenoble
- 🛣 Connected to 4 motorways, and directly connected to A7 motorway, 1 hr from Lyon
- 🚄 10 mins from high speed train stations
- 🚂 Direct rail connections (to Lyon, Geneva, Turin, Marseille...)

## SHARED SERVICES/UTILITIES

30 bars and 6 bars	Steam	
	Electricity	63 kvolts & 5.5 kvolts
Industrial water, demineralized water Fire system water	Industrial fluids	
	Industrial gas	Natural gas, compressed air, nitrogen, hydrogen, oxygen, CO <sub>2</sub>
Wastewater treatment plant Incinerator	Treatment of effluents	
	Possible connection to existing network	To the treatment plant To an incinerator
Medical care service, fire department Employees are trained in the first aid and emergency response Internal fire brigade specialized in chemical risk	Safety/security	
	Full service possible	Plug&Play connection, optical fiber, high-speed internet, phone network
Risk and HSE (hygiene, health, safety and environment) management HSE charter Equipment inspection service certified by the French authorities Industrial maintenance Analytical laboratory	Technical support functions	
	Infrastructure management	Railway traction, logistics, warehousing, rental of buildings, meeting rooms

## OTHERS SERVICES/UTILITIES

- High temperatures incinerator for chlorinated wastes
- Integrity of Devices managed by inspection service certified by the French administration
- Process Safety, engineering, DCS conception & implementation
- Infrastructure management: roads, underground networks, racks, reception of heavy vehicles
- Communication & public relations
- Training center

## NETWORK PLATFORM

Local Innovation clusters	Axelera	Chemicals and environment
	AXEL ONE	Collaborative platform for innovation: materials and processes
Research centers	CEA Grenoble	Chemicals, energy
	CNRS, ESRF, ILL	
Universities	University of Grenoble	One of the most famous French scientific pole, with 60.000 students and 5.000 researchers
Potential partners	In this industrial area	More than 200 permanent subcontractors
