One contact for all services: OSIRIS

Rue Gaston Monmousseau  
38150 Roussillon  
+33 4 74 11 37 00

**TOTAL AREA 150 HECTARES OF WHICH 10 ARE AVAILABLE**

## SHARED SERVICES/UTILITIES

<b>STEAM</b>	32 bars and 6 bars
<b>ELECTRICITY</b>	2 stations / 63 kvolts
<b>INDUSTRIAL FLUIDS</b>	Industrial water / demineralized water / fire system water
<b>INDUSTRIAL GASES</b>	Natural gas / compressed air / nitrogen / hydrogen / oxygen / CO <sub>2</sub>
<b>TREATMENT OF EFFLUENTS</b>	Wastewater treatment plant Incinerators
<b>POSSIBLE CONNECTION TO</b>	The treatment plant An incinerator
<b>SAFETY/SECURITY</b>	Medical care service, fire department / employees are trained in the first aid / firemen specializing in chemical risk
<b>TELECOM &amp; DATA</b>	Plug&Play connection / optical fiber / high-speed internet / telephone network
<b>TECHNICAL SUPPORT FUNCTIONS</b>	Risk and HSE (hygiene, health, safety and environment) management HSE charter Equipment inspection service certified by the French authorities Industrial maintenance / analytical laboratory
<b>INFRASTRUCTURE MANAGEMENT</b>	Rail traction / logistics / warehousing / rental of buildings / meeting rooms / data processing

## OPERATIONS / PRODUCTS

- Carbon fibers - cellulose acetate - chlorosilanes - disopropyl ether - hydrogen - methionine - methylthio-propionic aldehyde (MTPA) - nitric acid - phenol - raney - nickel catalyzers - salicylic acid - silica - siloxanes - sulfuric acid

## CHEMICAL PARK SPECIFICATIONS

- **16 companies on site:**
  - Adisseo (China)
  - Air Liquide (France)
  - Baxter (US)
  - Cofely (France)
  - Dalkia (France)
  - Ecoat (France)
  - Elkem Silicones (China)
  - Evonik Industries (Germany)
  - Gesip (France)
  - GIE OSIRIS (France)
  - HEXCEL (US)
  - Novacyl (France)
  - Novapex (France)
  - Prayon (Belgium)
  - Rhodia Acetow (Germany)
  - Suez (France)
- 1,600 employees
- **Security:** Fenced site, guarded 24/7, Seveso-certified site (high level of security)
- **Certifications at industrial level:** ISO 9001 - ISO14001 - ISO 50001 - OHSAS 18001 - RASE

## SPECIFIC SERVICES/UTILITIES

- Cooling water, decarbonated water
- Infrastructure management: roads, underground networks, racks, trucks
- HR management (salary, administrative procedures), training center
- Engineering, training management in Verguin high school
- Pooled purchasing

## INFRASTRUCTURE

-  **2 airports: Lyon-Saint Exupéry, Saint-Etienne**
-  **Connected to 4 motorways, and directly connected to A7 motorway, 30 mins from Lyon**
-  **Direct access to the Rhône river**
-  **30 mins from 3 high speed train stations**
-  **Direct rail connections (to Lyon and to Marseille)**

## NETWORK: INNOVATION AND POTENTIAL PARTNERS

<b>LOCAL INNOVATION CLUSTERS</b>	Axelera	Chemicals and the environment, recycling of materials
	TENERRDIS	Renewable energy
	AXEL'ONE	Collaborative platform for innovation: materials and processes
<b>RESEARCH CENTERS</b>	IFPEN	Oil and new energy
	CEA Grenoble	Atomic energy
<b>UNIVERSITIES</b>	François Verguin	Training center and technical high school managed by the OSIRIS
	University of Lyon	The second largest science cluster in France
<b>POTENTIAL PARTNERS</b>	In this industrial area	More than 400 subcontractors and other companies
