TOTAL AREA OF 50 HECTARES OF WHICH 5 ARE AVAILABLE

SHARED SERVICES/UTILITIES

STEAM	30 bars, 13 and 2 bars / gas and biomass production
ELECTRICITY	2 stations, 63 kvolts and 20 kvolts Production : cogeneration, biomass
INDUSTRIAL FLUIDS	Industrial water / demineralized water / fire system water
INDUSTRIAL GASES	Natural gas / compressed air / nitrogen / CO ₂
TREATMENT OF EFFLUENTS	Wastewater treatment plant / incinerators
POSSIBLE CONNECTION TO	The treatment plant / an incinerator
SAFETY/SECURITY	Medical care service / fire department / employees are trained in first aid / firemen specialized in chemical risk
TELECOM & DATA	Plug and Play connection / optical fiber / high-speed internet, telephone network
TECHNICAL SUPPORT FUNCTIONS	Risk and HSE (hygiene, health, safety and environment) management/ HSE charter / equipment inspection service certified by the French authorities / industrial maintenance / analytical laboratory
INFRASTRUCTURE MANAGEMENT	Railway traction / logistics / warehousing / rental of buildings / meeting rooms / data processin

OPERATIONS / PRODUCTS

- Fine chemical synthesis and formulation (vitamins, amino acids, specialities) for animal nutrition
- Solvent regeneration
- Nitrogen production
- Biomass energy production
- Coating, atomisation (food, feed)
- Breathable air production

CHEMICAL PARK SPECIFICATIONS

- **4 companies on site:**
 - Adisseo (China)
 - Biomasse Energie Commentry (France)
 - Innocap's (France)
 - DPSI (France)
- 500 direct employees, 100 subcontractors, of whom 80 in R&D
- Security: fenced site, guarded 24/24, SEVESO site (high level of security)
- Certifications: ISO 9001- ISO14001 - FAMIQS - OHSAS 18001

SPECIFIC SERVICES/UTILITIES

- Cooling water
- Gas and liquid incinerators
- Industrial maintenance: mechanical, electrical, instrumentation...
- Infrastructure management: roads, underground networks, racks, trucks
- HR management (payroll and administrative procedures), safety training center
- Engineering, training management
- Pooled purchasing
- Safety training

INFRASTRUCTURE

- International airport of Clermond-Ferrand-Auvergne
- Centre of France, directly connected to A71 and A89 highways, and East-West connection
- Connected to railway (to Paris and Lyon)
- Railway transportation for hazardous raw materials

NETWORK: INNOVATION AND POTENTIAL PARTNERS

LOCAL INNOVATION CLUSTERS	AXELERA	Chemicals and the environment recycling of materials
	CEEA	Economic development for Allier (Auvergne) region
RESEARCH CENTERS	CERN	Center for experimentation and research in animal nutrition (Adisseo)
	CINACHEM	Chemistry (Adisseo)
	CINATECH	Engineering (Adisseo)
	CINABIO	Biotechnologies (Adisseo)
UNIVERSITIES	CFSA	Training center for safety managed by Adisseo
	ENSCCF	French scientific university for Chemistry and process
POTENTIAL PARTNERS	In this industrial area	More than 400 subcontractors and other companies
