

CHEMICALS PLATFORM IN VILLERS-SAINT-PAUL

Accueil.vspu.cofely@engie.com
Tel: +33 (0)3 44 74 42 09

Plateforme Chimique
Rue Frédéric KUHLMANN
60871 Villers-Saint-Paul

**TOTAL AREA OF 37 HECTARES OF WHICH 12 ARE AVAILABLE
4 INDUSTRIAL ZONES + VSPU : 25 HA**

SHARED SERVICES/UTILITIES

STEAM	14 bars / 250 °C
ELECTRICITY	High voltage/low voltage
INDUSTRIAL FLUIDS	Demineralised industrial water
INDUSTRIAL GASES	Natural gas / compressed air / nitrogen / depleted air
TREATMENT OF EFFLUENTS	Water treatment and purification facility
POSSIBLE CONNECTION TO	Water treatment and purification facility / steam network: connection to processing centre for household waste
SAFETY/SECURITY	Medical care service
TELECOM & DATA	Plug&Play / fibre optic connections / wide-band / telephone network
TECHNICAL SUPPORT FUNCTIONS	Technical and administrative support to obtain authorisations
INFRASTRUCTURE MANAGEMENT	Meeting rooms

OPERATIONS / PRODUCTS

- Production of photocure resins, oligomers and monomers intended for use in production of thin coatings
- Copolymers in organic or aqueous solutions used for their water-repellant qualities
- Production of functional fluoro derivatives used for production of fire-extinguishing foam and for their water-repellant qualities

CHEMICAL PARK SPECIFICATIONS

- **4 companies on site:**
 - ARKEMA (France)
 - CHEMOURS (France)
 - DOW (France)
 - VSPU ENGIE Cofely (France)
- Over 300 directly employed, 100 indirectly employed
- **Security:** Seveso-certified site (high level of security), Guarded 24/7
- **Certifications at industrial level:** ISO 9001 - ISO 14001 - ISO 50001 - OHSAS 18001
- **Originality of the site:** a unique site bringing together 3 chemicals manufacturers and a service/utilities company. Flow and interconnections possible by positions downstream or upstream from the existing installations.

SPECIFIC SERVICES/UTILITIES

- Reception area for Visitors / Site reception / External Companies Reception / Logistics platform reception
- Centre for off-site treatment of liquid effluents
- Treatment of effluents: Pumping station
- Security/safety: SDIS 60
- Management of racks, packages, messaging, telephone services
- Management of GNR diesel oil for the platform vehicles
- Management of the platform plans, green areas and roadways, salt spreading and snow removal services
- Management and direction of the infirmary

INFRASTRUCTURE

-  **30 min from the international airports of Paris-Charles de Gaulle and Beauvais**
-  **Direct connection to motorways A34/A4, RN51/A 26**
-  **15 min from a TGV station - Paris (45min), Brussels (3hours), London (3hours 40min), 5min from a regional train station**
-  **Connected to the rail network serving an industrial center.**

NETWORK: INNOVATION AND POTENTIAL PARTNERS

LOCAL INNOVATION CLUSTERS	I-Trans	Transport
	IAR	Industry and Agro Resources
RESEARCH CENTERS	Pivert	Picardy and Vegetal Innovation
	Arkema Verneuil-en-Halatte	
	Ineris Verneuil-en-Halatte	
UNIVERSITIES	ESCOM Compiègne	Chemical Engineering School
	UTC Compiègne	Public Engineering school, science and technology
POTENTIAL PARTNERS	In the industrial zone	30 suppliers and subcontractors based nearby
